ABOUT

UX/UI Designer working on complex, constraint-driven contexts where clarity, structure, and decision-making matter more than visual polish alone.
Experienced in end-to-end, multi-platform products and client projects, closely aligned with developers and business constraints.

WORK EXPERIENCE & CLIENT PROJECTS

Skydoo (Web & UX/UI Designer – Work-Study Program)

April 2023 – September 2025 · Brussels

40+ real client projects (B2B / B2C)

- Delivered branded responsive UIs
- Built fast-loading websites under pressure
- Led end-to-end support with clients
- Delivered e-commerce pages in production (WordPress stack)

Maya International (UX/UI Designer)

September 2024 – September 2025 · Brussels

- Led end-to-end UX/UI design of WakAfrica multi-platform ecosystem (buyer app, vendor dashboard, web platform)
- Designed and scaled a complete design system from zero across multiple products
- Defined user flows, IA, wireframes, high-fidelity UI and interaction patterns
- Collaborated directly with founder and developers in a lean, real-world product environment
- Designed LEX AI Consulting corporate website for Fortune 500 targets, with CRO-driven structure and compliance-oriented positioning
